

Easy-match

Coloration system for concrete,
mortar and stucco

1-Product description

1.1 USE

- Easy-match pigments can be added to concrete, mortar, stucco or all other cement-based products to produce a wide spectrum of desired colours.
- A grey based product should be used to obtain dark colours. A white-based powder will result in pastel colours.

2- Application

2.1 RECOMMENDED DOSAGE

- For each 30 kg (66 lb) bag of material, add one half container of Easy-match. For darker colors, add the whole content of the container. Do not use more than one container per bag.
- Mortars and stuccos based on white cement require approximately 10 times less colorant. Use included measuring scoop in order to accurately achieve desired color.

- It is strongly advised to make a small test to confirm that the color obtained is adequate.

2.2 MIXING

- Measure the requested amount of water in a clean container.
- Add the colorant and stir well to disperse the colorant.
- Mix the dry ingredients with the colored water according to manufacturer's instructions.

2.3 RECOMMENDATIONS

- To have a consistent color from batch to batch, it is important to use clean containers and tools.

- Always measure exactly the same amount of water and colorant.

- Never spray water over a fresh surface.

- Wait for the initial set of the mix before proceeding with the finishing step. Early finishing will result in color variations.

2.4 CLEANING

- Clean tools with water.

3. Packaging

- This product is available in 5 colours, in 300 g -container.

- | | |
|-------------|--------|
| • Chocolate | #50.23 |
| • Buff | #50.27 |
| • Black | #50.31 |
| • Red | #50.35 |
| • Green | #50.37 |

4. Storage

- Store in a cool, dry place.
- Shelf life is unlimited in unopened containers.

5. First aid

This product may cause eye, skin and respiratory system irritation. Wear rubber gloves and safety glasses. If swallowed, call a Poison Control centre or doctor immediately. If victim is conscious, give two big glass of water and induce vomiting putting two fingers in the throat. In case of contact with eyes, rinse well with water for 15 minutes. In case of skin contact, rinse well with water. Keep out of reach of children. Consult the safety data sheet for more information.
