

# eco-guard

## 1-Product description

- **eco-guard** is a very efficient ecological de-icer. It is composed of an optimal mixture of melting agents to provide excellent melting properties and environmentally safe conditions towards plants, soil and aquatic life.

- **eco-guard** is composed of small green pellets coloured with biodegradable and non staining colourant. This coloured tracer helps controlling the amount of de-icer used and following its melting action.

- **eco-guard** is effective at temperatures of -20°C (-4°F) and more.

## 2- Advantages

- Fast action
- Rapidly melts ice on sidewalks, stairs or walkways.
- Green biodegradable tracer preventing excessive application.

## 3- Application

- Remove as much loose snow as possible.
- Spread 120 to 240 g (1/2 to 1 cup) of **eco-guard** per square meter (10 square feet) on iced surface.

## 4. Restrictions

- Do not use over new (less than 12 months old) concrete.

- Use on sound concrete.

- Do not apply over patio stones, natural paving stones, limestone or marble.

- Like all other de-icing chemicals, excessive usage can affect concrete soundness.

## 5. Packaging

This product is available in:

- 5 kg (11 lb) jugs.
- 9 kg (18.8 lb) plastic bags.

## 6. Storage

- Store in a dry place. Protect from humidity and water.
- Carefully close the bag after use.
- Long-term storage can cause product agglomeration. Shake content to break these agglomerations.

## 7. First aid

This product may cause eye and skin irritation. Wear rubber gloves and glasses. If swallowed, call a Poison Control centre or doctor immediately. Do not induce vomiting. In case of contact with eyes, rinse well with water for 15 minutes. In case of skin contact, rinse well with water. Keep out of reach of children. Consult the safety data sheet for more information.

## 8. Technical services

Contact Daubois for more information about application methods or conditions or to obtain the latest version of our technical documents.
